INDEX TO VOLUME 39

AUTHORS INDEX*

A

ABEL, HAROLD A. (*See* Mendlowitz and Abel), 92

AKMAN, L. (*See* Miller, Prec, Akman, Katz, and Gibson), 607

ALEX, MORRIS. Rupture of aortic aneurysm into the superior vena cava, 455

ALLEN, JOHN B., AND LAADT, JOHN R. The effect of the level of the ligature on mortality following ligation of circumflex coronary artery in the dog, 273

——. (*See* Laadt and Allen), 279

ALTSCHULE, MARK D. Further observations on vagal influences on the heart during electroshock therapy for mental disease, 88

ANDERSON, GEORGE M., AND HULL, EDGAR. The effect of Dicumarol upon the mortality and incidence of thromboembolic complications in congestive heart failure, 697

ARMSTRONG, HARRY G., AND RAFFERTY, JAMES A. Cold pressor test follow-up study for seven years on 166 officers, 484

ARTZ, C. P., MARTIN, M., AND MCCLEERY, R. S. Disadvantages of Dicumarol with special reference to therapeutic inadequacies, 157*

ATKINSON, WILLIAM J., JR. Tetraethylammonium chloride in the treatment of angina pectoris, 336

AUBERT, AXEL, AND LERCHE, CHRISTIAN. Subacute bacterial endocarditis in a child, ten months old, successfully treated with streptomycin, 141

B

BACHMAN, ARNOLD L. Incidence of cardiac enlargement in nondisabling rheumatic valvulitis, 405

BALDWIN, E. DEF. (*See* Greene, Baldwin, Baldwin, Himmelstein, Roh, and Cournand), 156*

BALDWIN, J. S. (*See* Greene, Baldwin, Baldwin, Himmelstein, Roh, and Cournand), 156*

BARBATO, ENNIO. (*See* Sodi-Pallares, Barbato, and Delmar), 387

BARENBERG, PAUL L. (*See* Schaffer, Burstein, Mascia, Barenberg, and Stillman), 588

BARONOFSKY, I. D. (*See* Wangensteen, Varco, and Baronofsky), 317*

BEAVERS, G. H. (*See* Fershtand and Beavers), 154*

BECKWITH, JULIAN R. (*See* Meredith, Jr., and Beckwith), 604

BELLET, S. (*See* Nadler, Bellet, and Lanning), 149*

BINÉ, R., JR. (*See* Friedman and Biné), 315*

BIX, HAROLD H. Invisible conduction leading to errors in electrocardiographic interpretation, 828

BOHR, DAVID F. (*See* Weaver and Bohr), 413

——, WEAVER, JOHN C., AND LEEDS, FRANK H. The digital blood pressure determination. III. A study of the effects of tetraethylammonium chloride on cardiovascular dynamics, making use of blood pressure responses at the digital level, 491

BORDEN, CRAIG. Acute myocarditis, 131

BORTIN, MORTIMER M., AND YOHALEM, STEPHEN B. Thyrotoxicosis factitia masked as heart disease, 894

BOYD, LINN J. (*See* Scherf and Boyd), 650

BOYER, N. H., AND WEINSTEIN, L. Diphtheritic myocarditis, 155*

BRADY, JOSEPH P., AND TAUBMAN, FELIX. The anomalous motion of the heart border in subjects with gallop rhythm or third heart sounds, 834

BRAHMS, SIGMUND A. (*See* Gordon, Brahms, and Sussman), 114

BRIGHAM, F. GORHAM. (*See* Rogers, Domeier, Brigham, and White), 761

BROWN, A. F. (*See* Hinshaw and Brown), 474*

BROWN, HERBERT R., JR. (*See* de Lalla, Jr., and Brown, Jr.), 519

BURSTEIN, JULIUS. (*See* Schaffer, Burstein, Mascia, Barenberg, and Stillman), 588

C

CARNES, W. H. (*See* Selzer, Carnes, Noble, Jr., Higgins, Jr., and Holmes), 156*

CASTEN, GUS G. The effects of the aging process on acid-soluble phosphorous compounds in the myocardium of rats, 353

CHAPMAN, CARLETON B., AND GIBBONS, THOMAS B. New aids in the diagnosis of dextrocardia, 507

CHIODI, H. (*See* Taquini, Fasciolo, Suarez, and Chiodi), 152*

CHRISTENSEN, L. R. Methods for measuring the activity of components of the streptococcal fibrinolytic system, and streptococcal desoxyribonuclease, 316*

CLAIBORNE, T. STERLING. Auricular tachycardia with auriculoventricular block of twelve years duration in a 16-year-old girl, 444

*An asterisk (*) after a page number indicates the reference is an abstract and not an original article.

CODINA-ALTÉS, J., AND PIJOAN DE BERISTAIN, C. Short paroxysms of tachycardia due to reciprocating rhythm, 436
COLE, S. L. Tap water sodium in the low sodium diet, 319*
COLE, SEYMOUR. Digitalis intoxication, 900
COOPER, F. W., JR., ROBERTSON, R. L., SHEA, P. C., JR., AND DENNIS, E. W. The experimental production of gradual occlusion of large arteries with polythene and tantalum, 318*
CORDAY, E. (See Prinzmetal, Corday, Spritzler, and Flieg), 474*
CORRELL, HOWARD L., AND ROSENBAUM, FRANCIS F. Multiple pregnancies in patients with rheumatic or congenital heart disease, 283
COURNAND, A. (*See* Greene, Baldwin, Baldwin, Himmelstein, Roh, and Cournand), 156*
CURRENS, J. H., AND WHITE, P. D. Cough as a symptom of cardiovascular disease, 318*
CURTIS, A. C., AND HORNE, S. F. Disseminated lupus erythematosus with pericardial effusion, 160*

D

DANIEL, FRANK D., AND MAGRUDER, R. GREGORY. Report of a case of ventricular fibrillation with recovery following acute coronary occlusion, 451
DELMAR, ALBERTO. (*See* Sodi-Pallares, Barbato, and Delmar), 387
DENNIS, E. W. (*See* Cooper, Jr., Robertson, Shea, Jr., and Dennis), 318*
DIENST, F. T., JR. (*See* Hargrove, Hall, and Dienst, Jr.), 918
DIMOND, E. GREY. Nonpenetrating chest injury and posterior myocardial infarction pattern, 298
DOMEIER, LUVERNE H. (*See* Rogers, Domeier, Brigham, and White), 761
DOTTER, C. T., AND STEINBERG, I. Angiocardiographic study of the pulmonary artery, 317*
DOW, J. W. (*See* Massell, Dow, and Jones), 153*
DRESSLER, WILLIAM, ROESLER, HUGO, AND SCHWAGER, ALFRED. The electrocardiographic signs of myocardial infarction in presence of bundle branch block. I. Myocardial infarction with left bundle branch block, 217
——, ——, AND ——. The electrocardiographic signs of myocardial infarction in the presence of bundle branch block. II. Myocardial infarction with right bundle branch block, 544
DREY, T. J. (*See* Good and Drey), 157*
DRUCKER, E. F. (*See* Friedell, Drucker, and Pickett), 154*

E

EISSLER, K. R. (*See* Sampson, Eissler, and Nay), 319*
ENSELBERG, CHARLES D., SIMMONS, HENRY G., AND MINTZ, ARTHUR A. The effects of magnesium upon cardiac arrhythmias, 703
——, ——, AND ——. The effects of potassium upon the heart, with special reference to the possibility of treatment of toxic arrhythmias due to digitalis, 713
EVANS, JACK M., WALTER, CARL W., AND HELLEMS, HARPER K. Alterations in the circulation during cardiac tamponade due to pericardial effusion, 181

F

FALOON, W. W. (*See* McCandles and Faloon), 152*
FASCIOLO, J. C. (*See* Taquini, Fasciolo, Suarez, and Chiodi), 152*
FEIRING, WILLIAM. Defective interauricular conduction with report of a case, 773
FELDER, D. A. Evaluation of the various clinical signs of thrombophlebitis and experience in therapy with anticoagulants, 475*
FERSHTAND, J. B., AND BEAVERS, G. H. Complete heart block in pregnancy, 154*
FISCHMAN, A. (*See* Fischmann and Fischman), 477
FISCHMANN, E. J., AND FISCHMAN, A. Thiocyanate in hypertension, 477
FLIEG, W. (*See* Prinzmetal, Corday, Spritzler, and Flieg), 474*
FORCHHAMMER, E. (*See* Lubschitz, Lundrsteen, and Forchhammer), 316*
FORMIJNE, P. A method for the percutaneous introduction of venous catheters, 111
FRIEDELL, M. T., DRUCKER, E. F., AND PICKETT, W. J. Histidine and ascorbic acid treatment of arteriosclerosis obliterans, 154*
FRIEDMAN, CARL-ERIC. The residual blood of the heart, 397
FRIEDMAN, M., AND BINÉ, R., JR. A study of the rate of disappearance of a digitalis glycoside (lanatoside C) from the blood of man, 315*

G

GARFINKLE, JACK M. (*See* Robinson and Garfinkle), 792
GASUL, B. M., GLASSER, J. M., AND GROSSMAN, A. Extreme hypertension in a child cured by nephrectomy, 315*
GERBER, I. E., AND MENDLOWITZ, M. Visceral thrombophlebitis migrans, 318*
GERSTEN, J. W., WAKIM, K. G., HERRICK, J. F., AND KRUSEN, F. H. The effect of microwave diathermy on the peripheral circulation and on tissue temperature in man, 160*
GIBBON, J. H. (*See* Templeton, III, and Gibbon), 473
GIBBONS, THOMAS B. (*See* Chapman and Gibbons), 507
GIBSON, S. (*See* Miller, Prec, Akman, Katz and Gibson), 607

GILSON, JOHN S. (*See* McCain, Kline, and Gilson), 263
GLASSER, J. M. (*See* Gasul, Glasser, and Grossman), 315*
GODFRIED, E. G. (*See* Groen and Godfried), 153*
GOLDMAN, M. J. Cardiac arrhythmias in myocardial infarction, 884
GONZALEZ, WILLIAM F. (*See* Morrison and Gonzalez), 729
GOOD, C. A., AND DREY, T. J. Conditions which result in increased pressure within the lesser circulation, 157*
GORDON, ALVIN J., BRAHMS, SIGMUND A., AND SUSSMAN, MARCY L. Visualization of the coronary circulation during angiocardiography, 114
GRANT, ROBERT P. An approach to the spatial electrocardiogram, 17
GRAY, IRVING. (*See* Greenfield and Gray), 430
GRAYBIEL, ASHTON. (*See* Packard and Graybiel), 144
GREENE, D. G., BALDWIN, E. DEF., BALDWIN, J. S., HIMMELSTEIN, A., ROH, C. E., AND COURNAND, A. Pure congenital pulmonary stenosis and idiopathic congenital dilatation of the pulmonary artery, 156*
GREENFIELD, IRVING, AND GRAY, IRVING. Lead poisoning. IX. The failure of lead poisoning to effect the heart and blood vessels, 430
GRIFFIN, W. R., NELSON, H. G., AND SEAL, J. R. Hemochromatosis with auricular fibrillation, 904
GROEN, J., AND GODFRIED, E. G. The occurrence of normoblasts in the peripheral blood in congestive heart failure: an indication of unfavorable prognosis, 153*
GROSS, R. E. Surgical treatment for coarctation of the aorta, 314*
GROSSMAN, A. (*See* Gasul, Glasser, and Grossman), 315*

SUBJECT INDEX*

A

Adrenal insufficiency, diagnosis and treatment of, 926 (B. Rev.)

Aging process, effects of, on acid-soluble phosphorus compounds in myocardium of rats (Casten), 353

Allergy, quinidine (Siegal and Horn), 302

Aminophylline, effect of, on prothrombin time of normal human plasma (Overman and Wright), 65

Anemia, hemolytic, acute, acquired, of unknown cause, 153*

Aneurysm, aortic, rupture of, into superior vena cava (Alex), 455
spontaneous perforation of, into superior vena cava with survival for 136 days (Sirota), 782
by spiral method, complete ligation of abdominal aorta for; case controlled by aortography, 158*
congenital, of membraneous interventricular septum with unique anomaly of pulmonary vessels (Leckert and Sternberg), 768
of left ventricle, electrokymographic studies in (Samet et al.), 749
syphilitic, of aorta with rupture into pulmonary artery (Klein and Porter), 465

Angina pectoris and myocardial infarction, 927 (B. Rev.)
tetraethylammonium chloride in treatment of (Atkinson, Jr.), 336

Anginal pain, significance of reference of, to right or left side of body (Wyburn-Mason), 325

Angiocardiographic study of pulmonary artery, 317*

Angiocardiography in differential diagnosis of pulmonary neoplasms, 318*
value of, in establishing diagnosis of pericarditis with effusion, 157*
visualization of coronary circulation during (Gordon et al.), 114

Angiosarcoma, primary, of heart (Tacket et al.), 912

Announcements, 320, 635, 796, 928

Anoxemia, pulmonary, respiration and circulation in, 152*

Anticoagulants, evaluation of various clinical signs of thrombophlebitis and experience in therapy with, 475*
use of, in treatment of diseases of heart and blood vessels, 158*

Aorta, abdominal, complete ligation of, for aneurysm by spiral method; case controlled by aortography, 158*
congenital coarctation of; theoretically reversible type of cardiac disease (Kondo et al.), 306
surgical treatment for coarctation of, 314*

Aorta—Cont'd
syphilitic aneurysm of, with rupture into pulmonary artery (Klein and Porter), 465

Aortic aneurysm, rupture of, into superior vena cava (Alex), 455
spontaneous perforation of, into superior vena cava with survival for 136 days (Sirota), 782
obstructions, intraluminal, ballistocardiographic patterns in (Murphy, Jr.), 174

Arrhythmias, cardiac, effects of magnesium upon (Enselberg et al.), 703
in myocardial infarction (Goldman), 884
toxic, due to digitalis, effects of potassium upon heart, with special reference to possibility of treatment of (Enselberg et al.), 713

Arterial occlusion, five-minute, technique for determination of vascular insufficiency (Kondo et al.), 99
wall, homorrhage into, as cause of peripheral vascular disease (Wartman), 79

Arteries, large, experimental production of gradual occlusion of, with polythene and tantalum, 318*

Arteriosclerosis, coronary, results of treatment of, with choline (Morrison and Gonzales), 729
obliterans, histidine and ascorbic acid treatment of, 154*

Artery, carotid, electrocardiogram following anastomosis of, to coronary sinus (Leiter), 125
coronary, circumflex, effect of level of ligature on mortality following ligation of, in dog (Allen and Laadt), 273
pulmonary, angiocardiographic study of, 317*
pure congenital pulmonary stenosis and idiopathic congenital dilatation of, 156*
syphilitic aneurysm of aorta with rupture into (Klein and Porter), 465

Ascorbic acid, histidine and, treatment of arteriosclerosis obliterans, 154*

Atropine sulfate, bodily rest, and exercise, effects of, on patients with transient ventricular fibrillation during established auriculoventricular dissociation. Study of influence of extrinsic nerves on idioventricular pacemaker of heart (III); transient ventricular fibrillation (Schwartz and de Sola Pool), 361

Auricular fibrillation, hemochromatosis with (Griffin et al.), 904
tachycardia with auriculoventricular block of twelve years duration in 16-year-old girl (Claiborne), 444

Auriculoventricular block of twelve years duration, auricular tachycardia with, in 16-year-old girl (Claiborne), 444

*An asterisk (*) after page number indicates the reference is an abstract and not an original article.

Auriculoventricular—Cont'd
dissociation, established, effects of bodily rest, atropine sulfate, and exercise on patients with transient ventricular fibrillation during. Study of influence of extrinsic nerves on idioventricular pacemaker of heart (III); transient ventricular fibrillation (Schwartz and de Sola Pool), 361
Auscultatory evidence of cardiac rupture (Nuzum), 909

B

Bacterial endocarditis, subacute, 473*
due to *Streptococcus faecalis*, Caronamide and penicillin in, 319*
in child, ten months old, successfully treated with streptomycin (Aubert and Lerche), 141
Ballistocardiograph, strain gauge, electric (Krahl), 161
Ballistocardiographic patterns in intraluminal aortic obstructions (Murphy, Jr), 174
Blood, cholesterol content of coronary arteries and, in acute coronary artery thrombosis (Morrison and Johnson), 31
circulation, complete, in man, studies on rapidity of (Sutton et al.), 741
flow, comparative study of short wave and microwave diathermy on, 153*
quantitative, measured calorimetrically in human toe in normal subjects and in patients with residua of trench foot and frostbite (Mendlowitz and Abel), 92
peripheral, occurrence of normoblasts in, in congestive heart failure, 153*
pressure, digital. I. Values in normal subjects (Weaver and Bohr), 413
II. Brachial-to-digital systolic pressure gradient in hyperthyroidism (Weaver and Bohr), 423
determination. III. Study of effects of tetraethylammonium chloride on cardiovascular dynamics, making use of blood pressure responses at digital level (Bohr et al.), 491
residual, of heart (Friedman), 397
vessels, failure of lead poisoning to affect heart and (IX); lead poisoning (Greenfield and Gray), 430
use of anticoagulants in treatment of diseases of heart and, 158*
Book reviews, 797, 926
Brachial-to-digital systolic pressure gradient in hyperthyroidism (II); digital blood pressure (Weaver and Bohr), 423
Brazilian Society of Cardiology, Sixth Annual Congress of, 636
Bundle branch block as temporary phenomenon in thyrotoxicosis (Packard and Graybiel), 144
electrocardiographic signs of myocardial infarction in presence of. I. Myocardial infarction with left bundle branch block (Dressler et al.), 217
Bundle branch block—Cont'd
II. Myocardial infarction with right bundle branch block (Dressler et al.), 544
form of QRS complex in, and in anterolateral infarction (Myers), 817
right, transient, wide S-wave type, in which normal conduction occurred both spontaneously and in response to vagal stimulation, 159*

C

Cardiac anomaly, unusual (Oestreicher and Harris), 626
arrhythmias, effects of magnesium upon (Enselberg et al.), 703
cycle, electrokymographic studies of relationship between electrical and mechanical asynchronism in (Samet et al.), 841
disease in pregnancy (Vander Veer and Kuo), 2
theoretically reversible type of; congenital coarctation of abdominal aorta (Kondo et al.), 306
enlargement, incidence of, in nondisabling rheumatic valvulitis (Bachman), 405
manifestations in Friedreich's ataxia (Manning), 799
rupture auscultatory evidence of (Nuzum), 909
tamponade due to pericardial effusion, alterations in circulation during (Evans et al.), 181
Cardiotonic drugs, other, digitalis and, 926 (B. Rev.)
Cardiovascular disease, cough as symptom of, 318*
diseases, national conference on, 633
Caronamide and penicillin in subacute bacterial endocarditis due to *Streptococcus faecalis*, 319*
Carotid artery, electrocardiogram following anastomosis of, to coronary sinus (Leiter), 125
sinus stimulation, development of ventricular tachycardia following, in paroxysmal supraventricular tachycardia (Meredith, Jr., and Beckwith), 604
Catheters, venous, method for percutaneous introduction of (Formijne), 111
Chest injury, nonpenetrating, and posterior myocardial infarction pattern (Dimond), 298
Child, ten months old, subacute bacterial endocarditis in, successfully treated with streptomycin (Aubert and Lerche), 141
Cholesterol content of coronary arteries and blood in acute coronary artery thrombosis (Morrison and Johnson), 31
Choline, results of treatment of coronary ateriosclerosis with (Morrison and Gonzalez), 729
Circulation, alterations in, during cardiac tamponade due to pericardial effusion (Evans et al.), 181
blood, complete, in man, studies on rapidity of (Sutton et al.), 741

Circulation—Cont'd
coronary, visualization of, during angiocardiography (Gordon et al.), 114
lesser, conditions which result in increased pressure within, 157*
peripheral, effect of microwave diathermy on, and on tissue temperature in man, 160*
studies on, in man, 155*
Coarctation, congenital, of abdominal aorta; theoretically reversible type of cardiac disease (Kondo et al.), 306
of aorta, surgical treatment for, 314
Cold pressor test follow-up study for seven years on 166 officers (Armstrong and Rafferty), 485
Conduction, interauricular, defective, with report of case (Feiring), 773
invisible, leading to errors in electrocardiographic interpretation (Bix), 828
normal, occurred both spontaneously and in response to vagal stimulation, transient right bundle branch block, wide S-wave type in which, 159*
Congenital aneurysm of membranous interventricular septum with unique anomaly of pulmonary vessels (Leckert and Sternberg), 768
rheumatic or, heart disease, multiple pregnancies in patients with (Correll and Rosenbaum), 283
Congestive heart failure, effect of Dicumarol upon mortality and incidence of thromboembolic complications in (Anderson and Hull), 697
of increased venous return on venous pressure in patients with (Hultgren), 592
Cor biatriatum triloculare (Richman), 887
pulmonale, acute, critical evaluation of extremity and precordial electrocardiography in (Phillips and Levine), 205
in absence of pulmonary embolism (Mack et al.), 664
Coronary arteries and blood, cholesterol content of, in acute coronary artery thrombosis (Morrison and Johnson), 31
arteriosclerosis, results of treatment of, with choline (Morrison and Gonzalez), 729
artery, circumflex, effect of level of ligature on mortality following ligation of, in dog (Allen and Laadt), 273
circulation, visualization of, during angiocardiography (Gordon et al.), 114
disease, possible hazards of high fat diets in, 475*
insufficiency, acute, pattern following intravenous ergotamine studies (McNerney and Leedham), 629
electrocardiographic diagnosis of, by leads demonstrating left ventricular cavity (Odle et al.), 532
ligation, effect of quinidine on ventricular fibrillation induced by (Laadt and Allen), 279
occlusion, acute, report of case of ventricular fibrillation with recovery following (Daniel and Magruder), 451
Coronary—Cont'd
sinus, electrocardiogram following anastomosis of carotid artery to (Leiter), 125
Cough as symptom of cardiovascular disease, 318*
Cycle length, Q-T interval, and corrected Q-T interval of electrocardiogram, normal respiratory variation of (de Lalla, Jr., and Brown, Jr.), 519

D

Deflection, intrinsic, and subepicardial activation, relationship between (Sodi-Pallares, Barbato, and Delmar), 387
Desoxyribonuclease, streptococcal, methods for measuring activity of components of streptococcal fibrinolytic system, and, 316*
Dextrocardia, new aids in diagnosis of (Chapman and Gibbons), 507
Diabetic acidosis, influence of serum potassium and other electrolytes on electrocardiogram in, 149*
Diathermy, microwave, effect of, on peripheral circulation and on tissue temperature in man, 160*
short wave and microwave, comparative study of, on blood flow, 153*
Dicumarol, disadvantages of, with special reference to therapeutic inadequacies, 157*
effect of, upon mortality and incidence of thromboembolic complications in congestive heart failure (Anderson and Hull), 697
erythrocyte sedimentation rate in human subjects receiving (Hyman and Harris), 321
Digital blood pressure. I. Values in normal subjects (Weaver and Bohr), 413
II. Brachial-to-digital systolic pressure gradient in hyperthyroidism (Weaver and Bohr), 423
determination. III. Study of effects of tetraethylammonium chloride on cardiovascular dynamics, making use of blood pressure responses at digital level (Bohr et al.), 491
Digitalis and other cardiotonic drugs, 926 (B. Rev.)
effects of potassium upon heart, with special reference to possibility of treatment of toxic arrhythmias due to (Enselberg et al.), 713
glycoside (lanatoside C), study of rate of disappearance of, from blood of man, 315*
intoxication (Cole), 900
Diphtheritic myocarditis, 155*
Diuretics, mercurial, 925 (Edit.)
organic, discovery of (Vogl), 881

E

Editorial, 1, 633, 925
Electrical and mechanical asynchronism, electrokymographic studies of relationship between, in cardiac cycle (Samet et al.), 841

Electrocardiogram, abnormal, effect of ergotamine tartrate on, in patients previously prepared with tetraethylammonium chloride (Schlachman and Scherf), 69
effects of emetine hydrochloride on, in man (Kent and Kingsland), 576
factors influencing T wave of; experimental study employing intracavitary and extraventricular (epicardial) leads. I. Effects of heating and cooling endocardium and epicardium (Hellerstein and Liebow), 35
following anastomosis of carotid artery to coronary sinus (Leiter), 125
in diabetic acidosis, influence of serum potassium and other electrolytes on, 149*
influence of insulin shock therapy on (Zohman and Russek), 737
normal respiratory variation of cycle length, Q-T interval, and corrected Q-T interval of (de Lalla, Jr., and Brown, Jr.), 519
precordial, normal, form of QRS complex in, and in ventricular hypertrophy (I) (Myers), 637
spatial, approach to (Grant), 17
unipolar, of newborn infant (Schaffer et al.), 588

Electrocardiographic changes, subendocardial myocardial infarction with special reference to (Yu and Stewart), 862
diagnosis of coronary insufficiency by leads demonstrating left ventricular cavity (Odle et al.), 532
of myocardial infarction, difficulties in (Levy and Hyman), 243
disturbances, relation of abnormalities in concentration of serum potassium to, 149*
interpretation, invisible conduction leading to errors in (Bix), 828
response to changes of posture during respiratory arrest following deep inspiration or expiration, 150*
signs of myocardial infarction in presence of bundle branch block. I. Myocardial infarction with left bundle branch block (Dressler et al.), 217
II. Myocardial infarction with right bundle branch block (Dressler et al.), 544

Electrocardiography, extremity and precordial, critical evaluation of, in acute cor pulmonale (Phillips and Levine), 205
fundamentals and clincal application, 798

Electrokymographic studies in aneurysm of left ventricle (Samet et al.), 749
of relationship between electrical and mechanical asynchronism in cardiac cycle (Samet et al.), 841

Electrolytes, other, influence of serum potassium and, on electrocardiogram in diabetic acidosis, 149*

Electroshock therapy for mental disease, further observations on vagal influences on heart during (Altschule), 88

Embolism, pulmonary, acute cor pulmonale in absence of (Mack et al.), 664
its incidence, significance, and relation to antecedent vein disease, 476*

Emetine, hydrochloride, effects of, on electrocardiogram in man (Kent and Kingsland), 576

Endocarditis, bacterial, subacute, 473*
due to *Streptococcus faecalis*, Caronamide and penicillin in, 319*
in child, ten months old, successfully treated with streptomycin (Aubert and Lerche), 141

Endocardium and epicardium, effects of heating and cooling (I); factors influencing T wave of electrocardiogram; experimental study employing intracavitary and extraventricular (epicardial) leads (Hellerstein and Liebow), 35

Epicardium, effects of heating and cooling endocardium and (I); factors influencing T wave of electrocardiogram; experimental study employing intracavitary and extraventricular (epicardial) leads (Hellerstein and Liebow), 35

Ergotamine, intravenous, studies, acute coronary insufficiency pattern following (McNerney and Leedham), 629
tartrate, effect of, on abnormal electrocardiogram in patients previously prepared with tetraethylammonium chloride (Schlachman and Scherf), 69

Erythrocyte sedimentation rate in human subjects receiving Dicumarol (Hyman and Harris), 321

Extremity and precordial electrocardiography, critical evaluation of, in acute cor pulmonale (Phillips and Levine), 205

F

Fagarine, clinical observations with, 159*

Fat, high, diets, possible hazards of, in coronary disease, 475*

Fibrillation, auricular, hemochromatosis with (Griffin et al.), 904
ventricular, induced by coronary ligation, effect of quinidine on (Laadt and Allen), 279
transient. III. Effects of bodily rest, atropine sulfate, and exercise on patients with transient ventricular fibrillation during established auriculoventricular dissociation. Study of influence of extrinsic nerves on idioventricular pacemaker of heart (Schwartz and de Sola Pool), 361
with recovery, following acute coronary occlusion, report of case of (Daniel and Magruder), 451

Fibrinolytic system, streptococcal, methods for measuring activity of components of, and streptococcal disoxyribonuclease, 316*

Friedreich's ataxia, cardiac manifestations in (Manning), 799

Frostbite, quantitative blood flow measured calorimetrically in human toe in normal subjects and in patients with residua of trench foot and (Mendlowitz and Abel), 92

G

Gallop rhythm or third heart sounds, anomalous motion of heart border in subjects with (Brady and Taubman), 834
Grafts, venous and pericardial, experimental reconstruction of cardiac valves by, 473*

H

Heart and blood vessels, failure of lead poisoning to affect (IX); lead poisoning (Greenfield and Gray), 430
use of anticoagulants in treatment of diseases of, 158*
and kidney disease, certain clinical aspects of application of water balance principles to, 158*
block, complete, in pregnancy, 154*
border, anomalous motion of, in subjects with gallop rhythm or third heart sounds (Brady and Taubman), 834
disease, congenital, case of (Miller et al.), 607
renal hemodynamics in (Heller and Jacobson), 188
rheumatic or congenital, multiple pregnancies in patients with (Correll and Rosenbaum), 283
thyrotoxicosis factitia masked as (Bortin and Yohalem), 894
value of miniature radiography in detection of (Mathisen et al.), 505
diseases of, 797 (B. Rev.)
failure, congestive, effect of Dicumarol upon mortality and incidence of thromboembolic complications in (Anderson and Hull), 697
effect of increased venous return on venous pressure in patients with (Hultgren), 592
occurrence of normoblasts in peripheral blood in, 153*
further observations on vagal influences on, during electroshock therapy for mental disease (Altschule), 88
primary angiosarcoma of (Tacket et al.), 912
sarcoma of, 151*
residual blood of (Friedman), 397*
rhabdomyosarcoma of (Hargrove et al.), 918
sounds, third, anomalous motion of heart border in subjects with gallop rhythm or (Brady and Taubman), 834
tumor, malignant, primary, diagnosed in vivo with aid of artificial pneumopericardium, 316*
Hemagglutination, cold, in peripheral vascular disease, 474*
Hemochromatosis, 317*
with auricular fibrillation (Griffin et al.), 904
Hemolytic anemia, acute, acquired, of unknown cause, 153*
Hemorrhage into arterial wall as cause of peripheral vascular disease (Wartman), 79
Histidine and ascorbic acid treatment of arteriosclerosis obliterans, 154*
Hypertension as reaction pattern to stress; summary of data on variations in blood pressure and renal blood flow, 151*
extreme, in child cured by nephrectomy, 315*
thiocyanate in (Fischmann and Fischman), 477
Hyperthyroidism, brachial-to-digital systolic pressure gradient in (II); digital blood pressure (Weaver and Bohr), 423
Hypertrophy, ventricular, form of QRS complex in normal precordial electrocardiogram and in (I) (Myers), 637

I

Infant, newborn, unipolar electrocardiogram of (Schaffer et al.), 588
Infarction, anterolateral, form of QRS complex in bundle branch block and in (Myers), 817
myocardial, angina pectoris and, 927 (B. Rev.)
cardiac arrhythmias in (Goldman), 884
clinical study of 281 autopsy reports on patients with (McCain et al.), 263
difficulties in electrocardiographic diagnosis of (Levy and Hyman), 243
duration of Q-T interval in (Krasnoff), 523
electrocardiographic signs of, in presence of bundle branch block. I. Myocardial infarction with left bundle branch block (Dressler et al.), 217
II. Myocardial infarction with right bundle branch block (Dressler et al.), 544
rupture of coronary sinus following, 474*
subendocardial, with special reference to electrocardiographic changes (Yu and Stewart), 862
pattern, myocardial, posterior, nonpenetrating chest injury and (Dimond), 298
Infectious arteritis, 151*
Insufficiency, coronary, electrocardiographic diagnosis of, by leads demonstrating left ventricular cavity (Odle et al.), 532
Insulin shock therapy, influence of, on electrocardiogram (Zohman and Russek), 737
Interauricular conduction, defective, with report of case (Feiring), 773
Interventricular septum, membranous, congenital aneurysm of, with unique anomaly of pulmonary vessels (Leckert and Sternberg), 768
Intoxication, digitalis (Cole), 900
Intrinsic deflection and subepicardial activation, relationship between (Sodi-Pallares, Barbato, and Delman), 387

K

Kidney, can vascular shunting be induced in, by vasoactive drugs? 315*
disease, certain clinical aspects of application of water balance principles to heart and, 158*

L

Lead poisoning. IX. Failure of lead poisoning to affect heart and blood vessels (Greenfield and Gray), 430
Leads demonstrating left ventricular cavity, electrocardiographic diagnosis of coronary insufficiency by (Odle et al.), 532
intracavitary and extraventricular (epicardial), experimental study employing; factors influencing T wave of electrocardiogram. I. Effects of heating and cooling endocardium and epicardium (Hellerstein and Liebow), 35
Levocardia, situs inversus with (Robinson and Garfinkle), 792
Ligation, coronary, effect of quinidine on ventricular fibrillation induced by (Laadt and Allen), 279
Ligature, effect of level of, on mortality following ligation of circumflex coronary artery in dog (Allen and Laadt), 273
Lupus erythematosus, disseminated, with pericardial effusion, 160*

M

Magnesium, effects of, upon cardiac arrhythmias (Enselberg et al.), 703
Mechanical, electrical and, asynchronism, electrokymographic studies of relationship between, in cardiac cycle (Samet et al.), 841
Mental disease, further observations on vagal influences on heart during electroshock therapy for (Altschule), 88
Mercurial diuretic, cerebral thrombosis precipitated by injection of, 476*
diuretics, 925 (Edit.)
organic, discovery of (Vogl), 881
Microwave diathermy, effect of, on peripheral circulation and on tissue temperature in man, 160*
short wave and, diathermy on blood flow, comparative study of, 153*
Mitral valve, duplication of (Schraft, Jr., and Lisa), 136
Myocardial infarction, angina pectoris and, 927 (B. Rev.)
cardiac arrhythmias in (Goldman), 884
clinical study of 281 autopsy reports on patients with (McCain et al.), 263
difficulties in electrocardiographic diagnosis of (Levy and Hyman), 243
duration of Q-T interval in (Krasnoff), 523
electrocardiographic signs of, in presence of bundle branch block. I. Myocardial infarction with left bundle branch block (Dressler et al.), 217
II. Myocardial infarction with right bundle branch block (Dressler et al.), 544
Myocardial infarction—Cont'd
pattern, posterior, nonpenetrating chest injury and (Dimond), 298
subendocardial, with special reference to electrocardiographic changes (Yu and Stewart), 862
Myocarditis, acute (Borden), 131
diphtheritic, 155*
Myocardium of rats, effects of aging process on acid-soluble phosphorus compounds in (Casten), 353

N

National conference on cardiovascular diseases, 633
Neoplasms, pulmonary, angiocardiography in differential diagnosis, 318*
Nephrectomy, extreme hypertension in child cured by, 315*
Nerves, extrinsic, study of influence of, on idioventricular pacemaker of heart. Effects of bodly rest, atropine sulfate, and exercise on patients with transient ventricular fibrillation during established auriculoventricular dissociation (III); transient ventricular fibrillation (Schwartz and de Sola Pool), 361
Normoblasts, occurrence of, in peripheral blood in congestive heart failure, 153*

O

Occlusion, coronary, acute, report of case of ventricular fibrillation with recovery following (Daniel and Magruder), 451

P

Pacemaker, idioventricular, of heart, study of influence of extrinsic nerves on. Effects of bodily rest, atropine sulfate, and exercise on patients with transient ventricular fibrillation during established auriculoventricular dissociation (Schwartz and de Sola Pool), 361
Pain, anginal, significance of reference of, to right or left side of body (Wyburn-Mason), 325
Parasystole, three unusual cases of (Scherf and Boyd), 650
Paroxysms, short, of tachycardia due to reciprocating rhythm (Codina-Altes and Pijoan de Beristain), 436
Patent ductus arteriosus, technique of surgical division of, 317*
foramen ovale, syndrome of pulmonary stenosis with, 156*
Penicillin, caronamide and, in subacute bacterial endocarditis due to *Streptococcus faecalis*, 319*
orally administered, in patients with rheumatic fever, 153*
Percutaneous introduction of venous catheters, method for (Formijne), 111

Pericardial effusion, alterations in circulation during cardiac tamponade due to (Evans et al.), 181
disseminated lupus erythematosus with, 160*
fluid, diagnosis of metastatic tumor by cytological examination of; report of case using Shorr's stain, 152*
Pericarditis with effusion, value of angiocardiography in establishing diagnosis of, 157*
Peripheral vascular conditions, tetraethyl ammonium chloride—its effects on surface temperatures of extremities in, 152*
disease, cold hemagglutination in, 474*
hemorrhage into arterial wall as cause of (Wartman), 79
Phosphorus compounds, acid-soluble, effects of aging process on, in myocardium of rats (Casten), 353
Plasma, human, normal, effect of aminophylline on prothrombin time of (Overman and Wright), 65
prothrombin times in normal human subjects. Effect of certain factors on prothrombin time (Overman et al.), 56
Pneumopericardium, artificial, primary malignant heart tumor diagnosed in vivo with aid of, 316*
Polyarteritis nodosa, 319*
Polythene and tantalum, experimental production of gradual occlusion of large arteries with, 318*
Posture, electrocardiographic response to changes of, during respiratory arrest following deep inspiration or expiration, 150*
Potassium, effects of, upon heart, with special reference to possibility of treatment of toxic arrhythmias due to digitalis (Enselberg et al.), 713
Precordial electrocardiogram, normal, form of QRS complex in, and in ventricular hypertrophy (I) (Myers), 637
electrocardiography, extremity and, critical evaluation of, in acute cor pulmonale (Phillips and Levine), 205
Pregnancies, multiple, in patients with rheumatic or congenital heart disease (Correll and Rosenbaum), 283
Pregnancy, cardiac disease in (Vander Veer and Kuo), 2
complete heart block in, 154*
Pressor test, cold, follow-up study for seven years on 166 officers (Armstrong and Rafferty), 484
Pressure gradient, systolic, brachial-to-digital, in hyperthyroidism (II); digital blood pressure (Weaver and Bohr), 423
increased, within lesser circulation, conditions which result in, 157*
Prothrombin time of normal human plasma, effect of aminophylline on (Overman and Wright), 65
times, plasma, in normal human subjects. Effect of certain factors on prothrombin time (Overman et al.), 56
Pulmonary anoxemia, respiration and circulation in, 152*
artery, syphilitic aneurysm of aorta with rupture into (Klein and Porter), 465
embolism, acute cor pulmonale in absence of (Mack et al.), 664
its incidence, significance, and relation to antecedent vein disease, 476*
vessels, congenital aneurysm of membranous interventricular septum with unique anomaly of (Leckert and Sternberg), 768

Q

QRS complex, form of, in bundle branch block and in anterolateral infarction (Myers), 817
in normal precordial electrocardiogram and in ventricular hypertrophy (I) (Myers), 637
Q-T interval, cycle length, and corrected Q-T interval of electrocardiogram, normal respiratory variation of (de Lalla, Jr., and Brown, Jr.), 519
duration of, in myocardial infarction (Krasnoff), 523
Quinidine allergy (Siegal and Horn), 302
effect of, on ventricular fibrillation induced by coronary ligation (Laadt and Allen), 279

R

Radiocardiography and its clinical application, 474*
Radiography, miniature, value of, in detection of heart disease (Mathisen et al.), 505
Reciprocating rhythm, short paroxysms of tachycardia due to (Codina-Altés and Pijoan de Beristain), 436
Renal hemodynamics in heart disease (Heller and Jacobson), 188
Respiratory arrest following deep inspiration or expiration, electrocardiographic response to changes of posture during, 150*
variation, normal, of cycle length, Q-T interval and corrected Q-T interval of electrocardiogram (de Lalla, Jr., and Brown, Jr.), 519
Rhabdomyosarcoma of heart (Hargrove et al.), 918
Rheumatic fever, orally administered penicillin in patients with, 153*
or congenital heart disease, multiple pregnancies in patients with (Correll and Rosenbaum), 283
valvulitis, nondisabling, incidence of cardiac enlargement in (Bachman), 405
Rhythm, reciprocating, short paroxysms of tachycardia due to (Codina-Altés and Pijoan de Beristain), 436

S

Salt depletion induced by regimen of sodium restriction and sodium diuresis, syndrome of, 476*

Sarcoma, primary, of heart, 151*
Schistosomiasis (cor pulmonale), cardiopulmonary, syndrome of (Kenawy), 679
Serum potassium and other electrolytes, influence of, on electrocardiogram in diabetic acidosis, 149
relation of abnormalities in concentration of, to electrocardiographic disturbances, 149*
Shock therapy, insulin, influence of, on electrocardiogram (Zohman and Russek), 737
Shorr's stain, report of case using; diagnosis of metastatic tumor by cytological examination of pericardial fluid, 152*
Short wave and microwave diathermy on blood flow, comparative study of, 153*
Shunting, vascular, can, be induced in kidney by vasoactive drugs? 315*
Sinus, coronary, electrocardiogram following anastomosis of carotid artery to (Leiter), 125
rupture of, following myocardial infarction, 474*
Situs inversus with levocardia (Robinson and Garfinkle), 792
Society for Vascular Surgery, Fourth Annual Meeting, 635
Sodium diet, low, tap water sodium in, 319*
restriction and sodium diuresis, syndrome of salt depletion induced by regimen of, 476*
Spatial electrocardiogram, approach to (Grant), 17
Stenosis, pulmonary, pure congenital, and idiopathic congenital dilatation of pulmonary artery, 156*
syndrome of, with patent foramen ovale, 156*
tricuspid, with survival to age of 61 years (Rogers et al.), 761
Strain gauge ballistocardiograph, electric (Krahl), 161
Streptococcal fibrinolytic system, methods for measuring activity of components of, and streptococcal desoxyribonuclease, 316*
Streptococcus faecalis, Caronamide and penicillin in subacute bacterial endocarditis due to, 319*
Streptomycin, subacute bacterial endocarditis in child ten months old successfully treated with (Aubert and Lerche), 141
Stress, hypertension as reaction pattern to; summary of data on variations in blood pressure and renal blood flow, 151*
Subepicardial activation, relationship between intrinsic deflection and (Sodi-Pallares, Barbato, and Delmar), 387
Syphilitic aneurysm of aorta with rupture into pulmonary artery (Klein and Porter), 465

T

T wave of electrocardiogram, factors influencing; experimental study employing intracavitary and extraventricular (epicardial) leads. I. Effects of heating and cooling endocardium and epicardium (Hellerstein and Liebow), 35
Tachycardia, auricular, with auriculoventricular block of twelve years duration in 16-year-old girl (Claiborne), 444
short paroysms of, due to reciprocating rhythm (Codina-Altés and Pijoan de Beristain), 436
ventricular, development of, following carotid sinus stimulation in paroxysmal supraventricular tachycardia (Meredith, Jr., and Beckwith), 604
Tamponade, cardiac, due to pericardial effusion, alterations in circulation during (Evans et al.), 181
Tantalum, experimental production of gradual occlusion of large arteries with polythene and, 318*
Tetraethylammonium chloride—its effects on surface temperatures of extremities in peripheral vascular conditions, 152*
death following use of, 314*
effect of ergotamine tartrate on abnormal electrocardiogram in patients previously prepared with (Schlachman and Scherf), 69
in treatment of angina pectoris (Atkinson, Jr.), 336
study of effects of, on cardiovascular dynamics, making use of blood pressure responses at digital level (III); digital blood pressure determination (Bohr et al.), 491
Thiocyanate in hypertension (Fischmann and Fischman), 477
Thromboembolic complications, effect of Dicumarol upon mortality and incidence of, in congestive heart failure (Anderson and Hull), 697
Thrombophlebitis, evaluation of various clinical signs of, and experience in therapy with anticoagulants, 475*
migrans, visceral, 318*
Thrombosis, cerebral, precipitated by injection of mercurial diuretic, 476*
coronary artery, acute, cholesterol content of coronary arteries and blood in (Morrison and Johnson), 31
Thyrotoxicosis, bundle branch block an temporary phenomenon in (Packard and Graybiel), 144
factitia masked as heart disease (Bortin and Yohalem), 894
Tissue temperature, effect of microwave diathermy on peripheral circulation and on, in man, 160*
Toe, human, quantitative blood flow measured calorimetrically in, in normal subjects and in patients with residua of trench foot and frostbite (Mendlowitz and Abel), 92

Trench foot and frostbite, quantitative blood flow measured calorimetrically in human toe in normal subjects and in patients with residua of (Mendlowitz and Abel), 92
Tricuspid stenosis with survival to age of 61 years (Rogers et al.), 761
Truncus arteriosus communis persistens (MacGilpen, Jr.), 615
Tumor, heart, malignant, primary, diagnosed in vivo with aid of artificial pneumopericardium, 316*
metastatic, diagnosis of, by cytological examination of pericardial fluid; report of case using Shorr's stain, 152*

U

Unipolar electrocardiogram of newborn infant (Schaffer et al.), 588

V

Vagal influences on heart during electroshock therapy for mental disease, further observations on (Altschule), 88
Valves, cardiac, experimental reconstruction of, by venos and pericardial grafts, 473*
Valvulitis, rheumatic, nondisabling, incidence of cardiac enlargement in (Bachman), 405
Vascular disease, peripheral, hemorrhage into arterial wall as cause of (Wartman), 79
insufficiency five-minute arterial occlusion techinque for determination of (Kondo et al.), 99
Vasoactive drugs, can vascular shunting be induced in kidney by? 315*
Vena cava, superior, rupture of aortic aneurysm into (Alex), 455
spontaneous perforation of aortic aneurysm into, with survival for 136 days (Sirota), 782
Venous catheters, method for percutaneous introduction of (Formijne), 111
return, increased, effect of, on venous pressure in patients with congestive heart failure (Hultgren), 592
Ventricle, left, electrokymographic studies in aneurysm of (Samet et al.), 749
Ventricular cavity, left, electrocardiographic diagnosis of coronary insufficiency by leads demonstrating (Odle et al.), 532
fibrillation induced by coronary ligation, effect of quinidine on (Laadt and Allen), 279
transient. III. Effects of bodily rest, atropine sulfate, and exercise on patients with transient ventricular fibrillation during established auriculoventricular dissociation. Study of influence of extrinsic nerves on idioventricular pacemaker of heart (Schwartz and de Sola Pool), 361
with recovery following acute coronary occlusion, report of case of (Daniel and Magruder), 451
hypertrophy, form of QRS complex in normal precordial electrocardiogram and in (I) (Myers), 637
tachycardia, development of, following carotid sinus stimulation in paroxysmal supraventricular tachycardia (Meredith, Jr., and Beckwith), 604
Vessels, pulmonary, congenital aneurysm of membranous interventricular septum with unique anomaly of (Leckert and Sternberg), 768

W

Water balance principles, certain clinical aspects of application of, to heart and kidney disease, 158*
